

WITH YOU

*It's so nice to be here, with you in my heart
I'll never find a reason, for leaving your side
I find it easy to say, I love the thought of you
I have no empty days, I love, I love, I love, being with you*

*You bring the sun to my eyes, when it rains in my heart
With you no good-byes, with you no need to part
I find it easy to say, I love the thought of you
I have no empty days, I love, I love, I love, being with you*

*Each day with you is complete, each hour lasts forever
I find it easy to say, I love the thought of you
I have no empty days, I love, I love, I love, being with you
Always my love, I will be with you
I'll love you always, I love, I love, I love, being with you*

DREAMING OF THE DAY

*We've only known each other such a short time
But I already know that you will be mine
We've grown closer with each passing hour
I feel I should be buying you flowers
The world is ours today, listen to the music sway
I'm dreaming of the day, when I will hear you say
It's you I'm thinking of, we must be in love, I'm dreaming of the day*

*Feel the rhythm of the syncopated beat
You know you can't help tapping your feet
I can see that look in your eyes
It should come as no surprise
Beneath the plastic palms, hold me in your arms
I'm dreaming of the day, when I will hear you say
It's you I'm thinking of, we must be in love, I'm dreaming of the day*

*You have to know what you mean to me
Turn my dreams into reality
I'm dreaming of the day, when I will hear you say
It's you I'm thinking of, we must be in love, I'm dreaming of the day
I'm dreaming of the day, when I will hear you say
It's you I'm thinking of, we must be in love,
I'm dreaming of the day, when I will hear you say
It's you I'm thinking of, we must be in love, I'm dreaming of the day*

THE GRACE OF GOD

*Sometimes bad things, happen to good people
Sometimes life brings, events that are so painful
This selfish world must learn to care, there's so much love we can share*

*They will never grow old they will live in my soul, live in my soul
See the world through my eyes and you realize
There but for the grace of God, go you and I*

*In the wrong place at the wrong time, life becomes so precious
How can we understand, the hand that fate deals us
With so many lives lost, you can't begin to count the cost*

*They will never grow old they will live in my soul, live in my soul
See the world through my eyes and you realize
There but for the grace of God, go you and I*

*We must learn to care for each other, you are my sister you are my brother
Although we can't change what has past, value every day as if it's your last
They will never grow old they will live in my soul, live in my soul
See the world through my eyes and you realize
There but for the grace of God, go you and I
There but for the grace of God
There but for the grace of God
There but for the grace of God
There but for the grace of God*

RESTING IN THE ARMS OF ANGELS

*Been so many days, since you went away
I miss the thought of you, my heart hungers for you
Though you're no longer here, I still feel you near
My soul's aching for you, remembering all you'd say and do
I know, I know you're there for me
And it shows, I say a prayer and you're here with me
Someday I pray, we'll be together again, resting in the arms of angels*

*Seems funny I know, how my love still grows
I feel you're here with me, living in my memory
Until we next meet, on an un-named street
I'll live my life for you, make you proud as you'd want me to
I know, I know you're there for me
And it shows, I say a prayer and you're here with me
Someday I pray, we'll be together again, resting in the arms of angels*

*And with your passing my life fell apart
You said don't grieve but it took time to heal my heart
I know, I know you're there for me
And it shows, I say a prayer and you're here with me
Someday I pray, we'll be together again
Resting in the arms of angels
Someday I pray, we'll be together again, resting in the arms of angels
Resting in the arms of angels*

NEVER FORGET

*Through the years we will remember, the names and faces of family and friends
Such bravery we've never seen, as our first line of defence
Giving their life the ultimate sacrifice, their voices must still be heard
Even today I hear them say, freedom is not just a word
There is no greater glory, as the sun begins to set
Than to die for one's Country, we are forever in their debt
They are gone but not forgotten, we remember them yet
They are gone but not forgotten, we will never forget*

*Your dreams I'll carry with me, in my memory, each and every day
In honour of those, whose lives God chose, we are all made from dust and clay
I know someday we will meet again, and their voices will be heard
Even today I can hear them say, freedom is not just a word
There is no greater glory, as the sun begins to set
Than to die for one's Country, we are forever in their debt
They are gone but not forgotten, we remember them yet
They are gone but not forgotten, we will never forget*

SAPPHIRE BLUE

*Soldiers, sailors, airforces danger will face
They risk their lives, to make this world a better place
They put the great in Great Britain, they make me proud to say
We love our Country, each and every day
Sapphire, sapphire blue, let your voice be heard across the world
Sapphire, sapphire blue, our Queen and Country we salute you*

*We honour our fallen, lest we forget
For those gone before, there can be no regret
Their lives given for us, their hearts were true
They live in our memory, we are so proud of you
Sapphire, sapphire blue, let your voice be heard across the world
Sapphire, sapphire blue, our Queen and Country we salute you*

*Their finest hour, they knew what they must do
Never was so much, owed by so many to so few
Sapphire, sapphire blue, let your voice be heard across the world
Sapphire, sapphire blue, our Queen and Country we salute you
Sapphire, sapphire blue, let your voice be heard across the world
Sapphire, sapphire blue, our Queen and Country we salute you*

PEACE IN THIS WORLD

*For every child that dies, a flower grows in heaven
Angels cry, as parents outlive their children
We must treasure our sons and our daughters, so when they sleep they dream
I want peace, peace, peace in this world
Peace, peace, for every boy and girl, peace in this world*

*Children are our future, just let the sun shine for them
Learn from our mistakes, don't make them again
There's no excuse, try and walk in my shoes, let's stand up, and be counted
I want peace, peace, peace in this world
Peace, peace, for every boy and girl, peace in this world*

*No more war, no more brother fighting brother
It's our dream, to give hope to each other
Take my hand, understand, that peace can last forever
Our Gods will walk with each other
I want peace, peace, peace in this world, peace, peace, for every boy and girl
Just give me peace, peace, peace in this world, peace, peace, for every boy and girl
I want peace, peace, peace in this world,
Just give me peace, peace, for every boy and girl, peace in this world, peace,
Peace in this world, peace in this world, peace in this world*
